To sell *Gladiolus* bulbs in the Fall, *the price must be attractive.* We have made these prices genuine bargain prices, so much lower than will be quoted next Spring, that *it will pay you well to store them until planting time.*

The storing and caring for Gladiolus bulbs over Winter is as easy as storing and keeping potatoes. *Keep them from freezing and in a cool, dry place.* That is all there is to it, and when planting time comes your bulbs are ready and you avoid the Spring rush which sometimes causes annoyance.
